MASTER THE LIVING ROOM

The living room is a hive of activity and a den of relaxation. Think about how the space is used – sitting, playing, jumping. Timber and laminate are both great for pets and quick clean ups. Quick-Step's laminate and timber collections come in a wide range of options. High-gloss and satin finishes will open up small, dark spaces while brushed and saw cut surface effects will take a bit of rough and tumble.

WHY WE LOVE QUICK-STEP® TIMBER

Made from real wood, Quick-Step's engineered hardwood floors offer the beauty of solid timber without the tendency to expand and contract. Quick-Step timber floors are pre-finished – no need to buff, stain or oil – and quick to install. They can also be refinished over a lifetime of evolving style.

- SCRATCH RESISTANT
- LIFETIME WARRANTY
- NATURAL, WARM FEELING
- READY TO WALK ON

KITCHEN

THE HEART OF THE HOME IS UNDER A LOT OF PRESSURE. FLOORS NEED TO OVERCOME SPILLS AND FAMILY HAVOC BUT THEY ALSO NEED TO BRING JOY TO THE SPACE WE SPEND SO MUCH TIME IN.

KITCHEN PERFECTION

The kitchen is action central. It brings us together over cups of tea, homework and chopping boards and it has to withstand heavy foot traffic. As we spend more time living in the kitchen, kitchens are connecting more with our living spaces. Underfoot, this creates a need to continue the same floor from the lounge area into the cooking zone, spills and all, and timber is a natural choice for easy maintenance. Quick-Step's timber and laminate collections resist scuffs and stains. Both feature a lacquered or oiled sealed surface to prevent dirt and bacteria accumulating on the floor, making them a great choice for allergy sufferers.

WHY WE LOVE QUICK-STEP® LAMINATE

Featuring a high-end finish, Quick-Step Laminate is stylish and seriously robust. The anti-static, sealed surface repels bacteria and dust and the ScratchGuard treatment makes this floor up to 10 times more scratch resistant than other laminates. It can even be installed over heated subfloors – for extreme coziness.

- HARD-WEARING
- WIDE RANGE OF STYLES
- ALLERGY FRIENDLY
- QUICK TO INSTALL

BATHROOM

WHEN CRAFTING YOUR BATHROOM'S MOOD, COLOUR, TEXTURE, PATTERN AND FINISH WILL ALL LEAVE THEIR MARK – FLOORING IS GROUND ZERO.

A DREAM BATHROOM BALANCES FORM AND FUNCTION. IT ALLOWS THE BODY TO UNWIND WHILE THE FLOORS ARE EASY ON YOUR FEET.

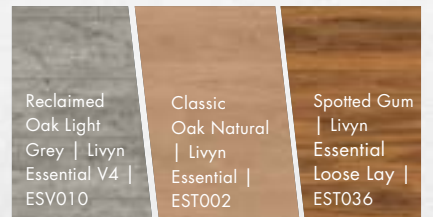

VINYL

Walnut Dark | Livyn Essential V4 | ESV013

BATHROOM BASICS

There are many influencing factors to lead you towards the perfect bathroom floor. Water is one, and the reality is a bathroom floor needs to be non-slip and easy to clean. The bathroom is also a bare foot kind of place that calls for comfort underfoot for midnight visits. This is where vinyl floors out perform all others. Quick-Step's high-quality synthetic floors are soft, warm, waterproof and a breeze to clean.

WHY WE LOVE QUICK-STEP® LIVYN

This waterproof and seriously strong surface is the star choice for bathrooms. Vinyl provides the look and texture of timber, carrying through your style into the wet area, without the hassle of sealing and resealing. A good thermal conductor, Quick-Step's Livyn vinyl is perfectly suited to underfloor heating.

- SLIP-RESISTANT
- QUIET & COMFORTABLE
- STRONG & DURABLE
- EASY TO CLEAN

BEDROOM

PICK A BEDROOM FLOOR THAT PASSES THE 'AHHH' TEST – THEN LAYER IT WITH NATURAL TEXTURES AND DECORATIVE TOUCHES THAT TELL YOUR STORY.

BEDROOM DREAM MAKERS

When you roll out of bed each morning, textured timber – a true pleasure to experience – can plant a smile on your face before you've even opened your eyes. In kids' bedrooms, seek out a warm surface for playing that's easy to clean. Low-maintenance laminate floors are a savvy choice. Quick-Step's cold-pressed ARC bamboo is another bedroom hero. The sustainable floor is cold-pressed for greater uniformity in density and colour, as well as a more appealing appearance.

WHY WE LOVE QUICK-STEP® TIMBER

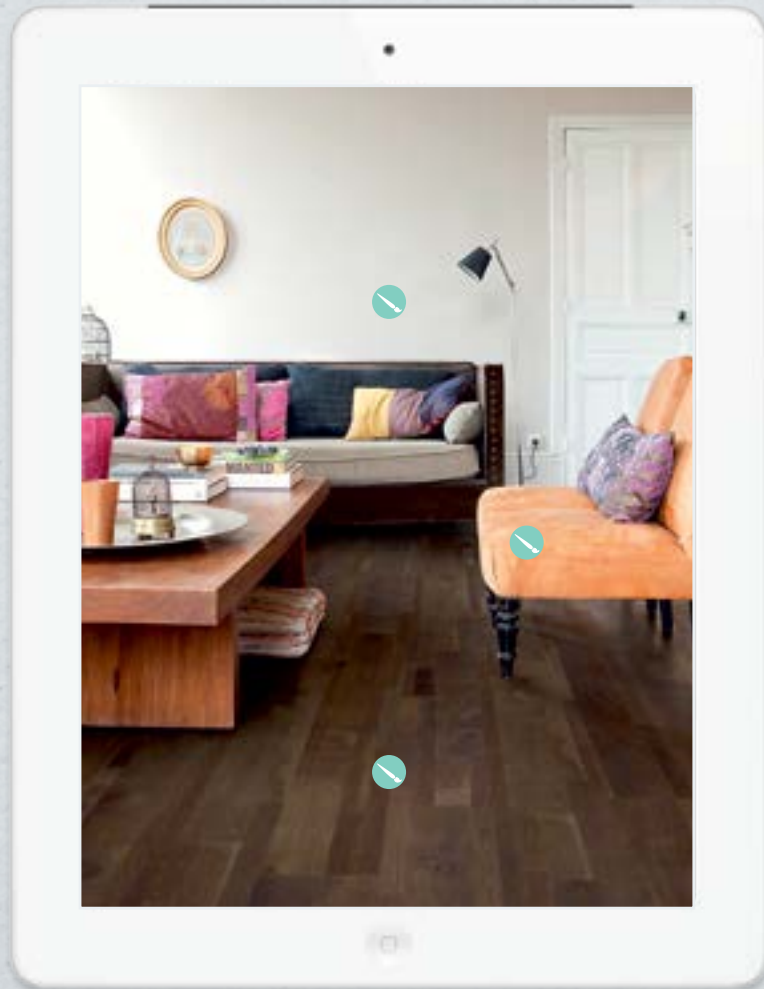

Where traditional timber has a tendency to creak, waking up bedfellows in the night, Quick-Step's engineered natural timber flooring features a stable core layer that absorbs that stress. It's also up to 15-times less likely to shrink and expand than solid timber.

- NO CREAKING
- SOFT ON FEET
- CAN BE RE-COATED
- LASTING GOOD LOOKS

VISUALISE HOW YOUR NEW FLOORS
WILL LOOK IN YOUR SPACE

WITH THE

FLOOR ADVISOR

HOW IT WORKS

The Floor Advisor is a hot new tool for the home decorator's digital toolbox, ultimately leading you towards a floor that will serve your space well and truly represent your style. It allows you to virtually lay myriad Quick-Step floor options at the push of a button. Experiment with colour tones, timber species, plank dimensions and finishes to see how each selection looks in your own space.

1

UPLOAD YOUR PICTURE

To find out how a Quick-Step floor will look in your own interior, just click 'upload your image' and choose a snapshot from the photo library on your computer or tablet.

2

DEFINE THE PERSPECTIVE

For the most realistic result, create a plane that matches the perspective of your original floor.

3

SELECT THE FLOOR AREA

Use the online tools to select the floor surfaces you want to experiment with.

4

GET INSPIRED!

You can then digitally 'try on' as many new floors as you like and see how they work with your furniture and the colour of your walls.
